

Racial Equity Action Plan

Thinking about the discussion that we had earlier regarding the equity tracer and the areas of potential bias, reflect on one racial equity/bias issue that you've witnessed/encountered, either in your personal life or in your work. Use these questions to create an action plan to address the problem.

<p>What is the setting? Personal life Work/Agency</p>	
<p>What problem do I see? Describe the problem.</p>	
<p>Who does this problem impact?</p>	
<p>What will I/my agency do to address this? List steps that you can take/how you will accomplish these steps</p>	
<p>When will I/we begin this work? Today, this week, this month, this year, etc.</p>	
<p>How will I/we recognize that improvement has been made? What improvements will you expect to see short term/long term?</p>
