

From Trauma-Aware to Trauma-Informed to Trauma-Responsive

The Journey of a Short-Term Residential Therapeutic
Program

Sycamores
a better life

Learning Objectives

- Identify 2 barriers to implementation of a trauma-informed program and ideas to address them
- Identify where your program is in its development of supporting youth and families with trauma experiences
- Describe how you would support your workforce in working with children and youth who have been exposed to trauma experiences

What does TIC look like in a residential setting?

- Environment
- Workforce (hiring, supervision, training)
- Practices (clinical and non-clinical, EBP, debriefing)
- Policy (prudent parenting, foster youth bill of rights, Title 22, safety planning)
- Engagement (relationships, family and community connection, natural supports)

Sycamores
a better life

What does TIC look like for our workforce?

- Training
- Supervision
- Coaching
- Surveys/discussions/voice
- Support from top/down

Sycamores
a better life

A Trauma-informed culture

- EBP (Risking Connections)
- Language
- Champions/coaches
- Policy review
- Expectations, modeling
- Parallel process (staff interaction)
- Review of data to inform practice & policy

Sycamores
a better life

Lessons learned

- Reluctance/fear/doubt
- Generations
- Time/resources
- Pace/Long-term
- Sustainability/Fidelity
